# WAVES 21

- You will stand out positively if you can offer treatments with this appliance in your salon!

Waves 21 is a unique device that enables us to treat aesthetic problems such as subcutaneous fat and fat around the organs (visceral fat), which until now have been virtually impossible to handle with existing technologies.

Waves 21 consists of two independent technologies:

- Electrical stimulation
- Cold treatment with LED colour

## COLD TREATMENT

+

## VIOLET LED

The temperature varies from  $-15^{\circ}\text{C}$  to  $+20^{\circ}\text{C}$

- Removes the subcutaneous fat and fat around the organs (visceral fat)
- Calms nerves and muscles
- Removes cellulite
- Helps circulation in the lymphatic and venous system

## ELECTRICAL STIMULATION

We use two adjustable power handles, from which an electric current with a sinusoidal waveform is emitted.

This electric current has special frequencies (from 0 to 42Hz) corresponding with the frequencies of some brain waves.

Waves 21 stimulates muscle bands with frequencies that affect the fat around the organs (the visceral fat).

## ALPHA

7-14Hz - Relaxed, reflection, long-term memory, creativity

Alpha is the resting state for the brain. Alpha waves aid overall mental coordination, calmness, mind/ body integration and learning.

## **BETA**

14-30Hz - Awake, alert, short-term memory, routines

You are wide-awake, alert. Your mind is sharp, focused. It makes connections quickly, easily, and you're primed to do work that requires your full attention.

## **GAMMA**

>30Hz - Higher awareness, concentration, focus

Gamma is a governing agent in the brain. The brain becomes more coherent and efficient, and there is less noise.

There is the physiological benefit of powering up your body (as well as your brain), and part of that is owing to the fact that gamma produces new neurons like crazy.

You can actually bring it with you into everyday life so you're functioning in a superconscious way.

## How do we treat with frequencies?

Mainly with direct and targeted action on metameres, as well as in part on the area where the beauty problem is present.

## What is metameres?

Metameres are 11 muscle bands linked to sympathetic nervous system. Each metamere is a reflex zone that corresponds to an **organ/ viscera**, connected to the metamere itself thanks to the ganglionic chain of the sympathetic nervous system.

## Why there?

Stimulate metameres to create through the sympathetic peripheral nervous system actions aimed at restoring and balancing some body activities that will lead to the improvement / elimination of beauty problem.

*Example:*

We will stimulate the metameres corresponding to the bladder, the liver and the kidneys to have a detoxifying action. Or the thyroid, liver and heart metameres to increase blood circulation, oxygenation and metabolism.

## What can be treated?

---

- Fat
- Excess skin
- Cellulite
- Compact fat
- Buffalo hump
- Coulotte de cheval

"I have been using Waves 21 for about 3 months now and I am very happy. Have tried it on muscle knots/ pain with great results, scar treatment with incredible results, fat and tightening on the stomach, drainage on the arm, all with good results.

- Looking forward to the continuation! "

*Ann-Kristin Kvalen, owner of  
'Cryo Klinikken Ann-Kristin Kvalen'  
in Ulsteinvik, Norway*

Buffalo hump - before

Buffalo hump - after 2 treatments

Fat abdomen - before

Fat abdomen - after 1 treatment

The illustration above shows from the left a normal person with low subcutaneous and visceral fat, then with increasing subcutaneous and visceral fat, and on the right one with a lot of subcutaneous and visceral fat.

The dangerous fat around the organs (the visceral fat) causes a variety of dangerous diseases, as illustrated above.

## Why choose Waves 21?

Waves 21 complements 21 Equipment's range in that, in addition to using an already known and working technology such as cold treatment and the effects of LED light, we have added a unique treatment consisting of frequencies that are in synergy with the

body and brain.

Waves 21 adds two unique treatments that we previously could not offer: removing fat around the organs (visceral fat) and reduction of fat hump.
